

Material Safety Data

N/A=Not Applicable

(Prepared According To 29 CFR 1910, 1200)

Effective Date: 1/1/04

Product Identification

Product Name: Enzyme 5
Generic Name: Enzyme
Supplier's Name: HydraMaster
Supplier's Address: 11015 47th Avenue West, Mukilteo, WA 98275

Chemical Family: Spotter
Formula: Mixture
Phone Number: (425) 775-7272
Emergency: (800) 424-9300

NPCHA Hazardous Materials Identification System

Health	1
Flammability	0
Reactivity	0
Maximum Personal Protection	A

Ingredients

CHEMICAL NAME	CAS NO.	WT. %	PEL	TWA-TLV	STEL-TLV	CARCINOGEN
No chemicals reportable under 313						
No Prop 65 chemicals						

Physical Data

Boiling Range: 212° F
Vapor Pressure:
% Volatile:
Solubility in Water: Complete
Physical Description: Liquid, non-viscous, faint sweet odor.

Specific Gravity: (H2O=1): 1.00
Vapor Density: Heavier Than Air
pH: 6.0 - 8.5
Evaporation Rate: Slower Than Ether

Reactivity Data

Stability: Stable
Hazardous Polymerization: Will Not Occur
Incompatibility (Materials to Avoid): None
Hazardous Decomposition Products: May liberate carbon monoxide, carbon dioxide, and oxides of sulfur.

Fire and Explosion Hazard Data

Concentrate Flash Point (Method): None
Propellant Flash Point (Method): N/A
Flash Point (Method): COC

Explosive Limits
Upper: N/A
Lower: N/A

Extinguishing Media: Foam, CO2, Dry Chemical, Water Fog

Special Fire Fighting Procedures: Fire fighters should wear self-contained breathing apparatus and full protective clothing. Use water spray to cool nearby containers and structures exposed to fire.

Unusual Fire and Explosion Hazards: None

Storage and Handling Information

Precautions to be Taken in Handling and Storage: Store in a dry, well ventilated place away from incompatible materials. Keep container tightly closed when not in use. Store at temperatures above the solutions freezing point to remain liquid. Do not use pressure to empty container.

Other Precautions: Empty containers usually still hold residues of material and vapors. These must be considered hazardous and disposed of in accordance with proper handling procedures prescribed for hazardous chemicals. When mixing with water, always add this product to water and stir.

Health Hazards and First Aid

Effect of Overexposure:

Primary Route of Entry:

Skin: No irritation is likely after brief contact but may be irritating after prolonged contact.

Eyes: Liquid and mists will irritate and may burn the eyes.

Inhalation: Inhalation risks for this product are considered to be minimal.

Ingestion: Swallowing large quantities may cause nausea and vomiting.

First Aid Procedures

Skin: Immediately wash skin with lots of soap and water. Remove contaminated clothing & shoes. Get medical attention.

Eyes: Flush immediately with large amounts of water for at least 15 minutes holding eye lids open. Get medical attention..

Inhalation: Remove to fresh air. Give artificial respiration if not breathing.

Ingestion: If conscious, drink 2 glasses of water and immediately induce vomiting. Consult a physician or poison control center immediately. Treat symptomatically. Do not give anything by mouth to an unconscious or convulsing person.

Special Protection Information

Respiratory Protection: In the absence of adequate ventilation an approved respirator may be required.

Protective Gloves: None required with normal use.

Other Protective Equipment: Where gross eye and skin contact may occur use and wear appropriate clothing, rubber boots with pants on the outside, and rubber gloves.

Ventilation: Be sure to provide adequate ventilation in all working areas at all times. In general, health problems could result from repeated and prolonged exposure to chemical vapors.

Eye Protection: None required under normal use conditions. Eye protection required if used overhead or misting or spraying.

Spill or Leak Procedures

Steps to be Taken in Case Material is Released or Spilled:

For small spills dilute with water, mop or wipe up and contain. For large spills, contain by diking with absorbent material. Keep material out of sewers, storm drains, surface waters, and soil.

Waste Disposal Method:

Comply with all applicable governmental regulations on spill reporting, handling and disposal of waste. Dispose of contaminated product and materials used in clean up in a manner approved for this material and the contaminant. Consult appropriate Federal, State and Local regulatory agencies to ascertain proper disposal procedures and comply with them.
